

Hugh Baird College: Control of Infectious Diseases

Hugh Baird College provides an integrated approach to **protecting the health of students, staff and visitors** through the provision of **support and advice**, which is sourced from the Health Protection Agency, and the NHS Primary Care Trust.

A wide variety of infectious diseases and pathogens, includes:

- AIDS and HIV
- Pandemic influenza
- Meningitis
- Chicken Pox
- Mumps
- Rubella

For specific information on infectious diseases please use the following link <http://www.hpa.org.uk/Publications/InfectiousDiseases/Factsheets/>

Any reported cases within the college are monitored and advice is given accordingly. If anyone would like further information regarding infectious diseases or would like to report a case please contact:
